

Letter of recommendation

Fast Data Science Ltd
55 Sotheby Road
London
N5 2UP
UK
11 April 2025

Dear Sir/Madam,

It is with immense pleasure and without reservation that I recommend Jay Dugad, a highly valued Data Scientist.

Jay has been working for Fast Data Science Ltd since early 2025. Jay has been an integral member of our team, contributing significantly to both the Clinical Trial Risk Tool and the Harmony open-source project as a community manager. He has also worked on our open source Drug Named Entity Recognition tool.

Jay's dedication, technical proficiency, and understanding of business problems and willingness to learn will make him a strong asset to your team.

Please do not hesitate to contact me if you require any further information.
